

AGCO™ White Planters® Insecticide Drop Tube Instructions – Rear Mount

Part No. SB020751: bolt-on attachment for 6000 series

Part No. SB020752: bolt-on attachment for 8100 & 5100 series

Drop Tube SB020751 is used for all SmartBox® system rear mount applications on AGCO™ White® 6000 series planters.

This tube fastens to the planter using existing holes in planter.

Drop Tube SB020752 is used for all SmartBox® system rear mount applications on AGCO™ White® 8100 and 5100 series planters.

Model 5100: This tube fastens to the planter using existing holes in planter.

Model 8100: This tube requires an insecticide mounting bracket that must be ordered from an AGCO™ White® dealer.

General Mounting Instructions: Your SmartBox® system requires that a minimum 45 degree angle be maintained at any point along the product discharge path from the meter outlet to the in-furrow drop tube. The drop tube may need to be bent to adjust. The plastic hose should be cut to length to eliminate any unnecessary slack that could cause a flow restriction. Also, if using a seed firmer the drop tube's foot (if applicable) may need to be cut off or bent up if restricting the firmer's travel.
