SMARTBOX® CLOSED HANDLING SYSTEM WITH DRYSET MICRO™

APPLICATION
TECHNOLOGY

DrySet Micro™ Insecticide Meter:
Maintenance-Free Electric Drive System

Get precise, consistent granular insecticide application with SmartBox® Closed Handling Packaging and DrySet Micro — the electric, auger based meter made for versatility and accuracy. The available blockage sensor feeds flow data into the 20I20 display for real-time data insight. Optimize product delivery with variable rate application and swath control.
