

Corn

iNvigorate® | B Sure®

PRODUCT APPLICATION AND TIMING FOR CORN

B Sure®

- Supports plant productivity in a variety of environmental conditions
- Contains carbon, nitrogen, true protein, amino acids and essential metabolic micronutrients

iNvigorate®

- Highly productive microbial community when applied to the soil, assisting in nutrient uptake and improving fertilizer efficiency
- Promotes availability and absorption of nitrogen, phosphorus and potassium. Along with promoting a healthy soil microbial community, also promotes better fertilizer utilization and increased yields

B Sure®

Type Of Application	pt/A	Timing
Foliar	1 - 4	From V5 through VT ¹

¹ With herbicides, insecticides, fungicides and foliar nutrition.

iNvigorate®

Type Of Application	pt/A	Timing
Soil	2 - 4	At planting ²

² In furrow or side dress fertilization through mid vegetative stage.
