

Cotton

iNvigate® | B Sure®

PRODUCT APPLICATION AND TIMING FOR COTTON

B Sure®

- Supports plant productivity in a variety of environmental conditions
- Contains carbon, nitrogen, true protein, amino acids and essential metabolic micronutrients

iNvigate®

- Highly productive microbial community when applied to the soil, assisting in nutrient uptake and improving fertilizer efficiency
- Promotes availability and absorption of nitrogen, phosphorus and potassium. Along with promoting a healthy soil microbial community, also promotes better fertilizer utilization and increased yield

B Sure®

Type Of Application	pt/A	Timing
Foliar	1 - 4	From pinhead square through boll fill ¹

¹With herbicides, insecticides, PGR's and foliar nutrition

iNvigate®

Type Of Application	pt/A	Timing
Soil	2 - 4	From planting through mid vegetative stage ²

²With in furrow, starter or side dress/top dress fertilization.
