

Wheat

iNvigorate® | B Sure®

PRODUCT APPLICATION AND TIMING FOR WHEAT

B Sure®

- Supports plant productivity in a variety of environmental conditions
- Contains carbon, nitrogen, true protein, amino acids and essential metabolic micronutrients

iNvigorate®

- Highly productive microbial community when applied to the soil, assisting in nutrient uptake and improving fertilizer efficiency
- Promotes availability and absorption of nitrogen, phosphorus and potassium. Along with promoting a healthy soil microbial community, also promotes better fertilizer utilization and increased yield

B Sure®

Type Of Application	pt/A	Timing
Foliar	1 - 4	With herbicides, fungicides, insecticides and foliar nutrition from S4 through S10

iNvigorate®

Type Of Application	pt/A	Timing
Soil	2 - 4	At planting ¹

¹ In furrow or side dress/top dress fertilization from planting through mid vegetative stage.
