

WAKE UP YOUR CROP'S POTENTIAL

Product Description

BioWake™ for Cotton is a biological seed lubricant that delivers superior seed flow, seed singulation, and enhanced seed vigor from day one of planting. As an all-in-one planter box solution, BioWake for Cotton ensures precise and efficient seed placement while adding live-microbial benefits. These biological properties help ensure resilience against abiotic stress, while advancing plant strength from the ground up via robust root development for superior nutrient uptake.

BioWake for Cotton is soy-based, providing a safer, cleaner upgrade to the talc or graphite seed lubricant you are already using. With added environmental and soil health advantages, you can ensure you are getting the most out of every pass by adding BioWake for Cotton to your planter.

Features and Benefits

- A biologically friendly seed lubricant that contains beneficial microbes specifically selected for use in cotton
- Provides superior seed singulation and placement
- Promotes early-season vigor and enhanced nutrient uptake
- Improves overall root development and length
- Cleaner and safer upgrade to traditional talc or graphite seed lubricants
- 12 to 1 grower ROI

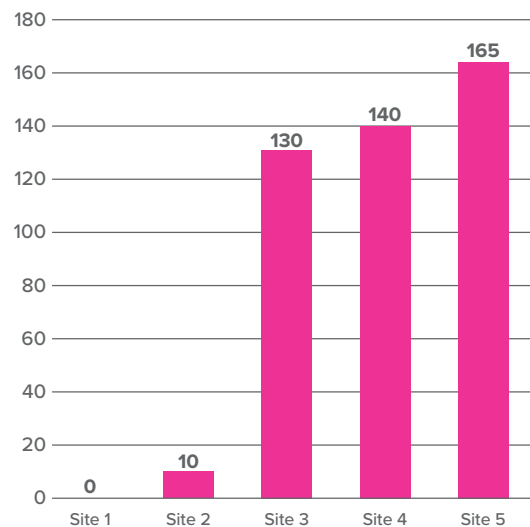

Application Rates

- 1 oz. per unit of cotton
- 8 (40 oz.) pouches in a case, pouch treats 200 acres
