

## ARROZ 80<sup>®</sup> CA HERBICIDE APPROVED SURFACTANTS

UAN 28% or 32% at 2% v/v may be used in conjunction with an approved surfactant to improve efficacy (except Dyne-A-Pak<sup>®</sup> which already contains UAN). UAN is NOT a substitute for an approved surfactant but rather may be used in combination with one of the approved surfactants. Always\* use an approved surfactant with **Arroz 80<sup>®</sup> CA Herbicide**.

\*Unless specific label section or supplemental label indicates otherwise.

Product	Minimum Use Rate	
	fl oz/100 gal of Spray Mix	fl oz/A
