

POSTEMERGENCE WEED CONTROL IN MID-SOUTH RICE WITH ARROZ 80® HERBICIDE

Product Features

- Provides effective and flexible barnyardgrass, aquatic and broadleaf weed control.
- Can be applied both pre- and post-flood.
- Controls propanil and/or quinclorac resistant barnyardgrass.

Key Weeds Controlled

Barnyardgrass, johnsongrass, rice flatsedge, jointvetch, hemp sesbania.

Application Timing and Rates*

Weeds and Use Rates*

Weed	Weed Size	Control or Suppression	Use Rate (oz/A)
<i>Barnyardgrass/Junglerice</i>	2-leaf up to 5 leaf	C	0.40
	5 leaf through 1 tiller	C	0.53
	Up to 3 tillers	C	0.57
<i>Barnyardgrass/Junglerice – Late Application</i>		S	0.57–0.67
<i>Annual Rice Flatsedge</i>	1 to 3 tillers	C	0.57–0.67
<i>Dayflower</i>	1 leaf up to 4 leaf	C	0.40–0.57
<i>Ducksalad</i>	1 leaf up to 4 leaf	C	0.40–0.57
<i>Eclipta</i>	1 leaf up to 4 leaf	S	0.40–0.57
<i>Hemp Sesbania</i>	3 to 18 inches	C	0.40–0.57
<i>Johnsongrass</i>	3 to 24 inches	C	0.40–0.57
<i>Jointvetch, Indian</i>	3 to 18 inches	C	0.40–0.57
<i>Jointvetch, Northern</i>	3 to 18 inches	C	0.40–0.57
<i>Redstem</i>	1 to 4 inches	S	0.40–0.57
<i>Smartweed, Pennsylvania</i>	1 to 4 inches	C	0.40–0.57
	4 to 24 inches	S	0.40–0.57
<i>Texas / Mexicanweed</i>	1 leaf up to 4 leaf	S	0.40–0.57
<i>Water Hyssop</i>	1 leaf up to 4 leaf	C	0.40–0.57

*See product label for use directions and the complete weed list.

Do not exceed more than 1.06 oz/A per year of **Arroz 80® or 0.053 lb a.i./A of bispyribac-sodium.

Application Guidelines

- Apply at 15–20 gal/A by ground.
- Apply at 10 gal/A by air.
- Always include an approved surfactant and 2% v/v UAN, such as Helena® Dyne-A-Pack®. See “**Arroz 80®** Approved Surfactants” bulletin for a list of permitted surfactants and use rates.
- Include buffering agent if pH is above 7 or below 6.
- Apply in a manner that minimizes drift potential (i.e. low wind, medium to large droplet sizes, do not apply during a temperature inversion).
- Only use flat-fan nozzle types for ground application.

Application Restrictions

- Observe a 3 week application interval for sequential applications of bispyribac-sodium.
- Do not exceed 1.06 oz/A of **Arroz 80** or 0.053 lb a.i./A of bispyribac-sodium per year.
- Do not apply to Bengal rice variety.
- Does not control group 2 (ALS herbicide) resistant weeds.

Arroz 80 is exclusively sold by Helena Agri-Enterprises®.
