THE POWER OF CONCENTRATION

HALF THE HANDLING

THE POWER OF CONCENTRATION

MORE TIME TO PLANT

TWICE THE ACTIVE INGREDIENT

The first higher concentration granular insecticide from AMVAC Chemical:

- University trials confirm AZTEC[®] HC delivers the same superior control of Rootworm and Secondary Pests as AZTEC[®] 4.67G and 2.1G.
- Plus, all the convenience of the higher concentration granular formulation

AZTEC HC APPLICATION RATES

**CROPS: FIELD CORN, SWEET CORN,POPCORN,
CORN GROWN FOR SEED OR SILAGE**

For greater confidence in yield, and stand protection, on any corn.

RATE: 1.5 Ounces per 1,000 Feet of Row

Row Spacing (inches)	Pounds per Acre
30	1.63
32	1.53
34	1.45
36	1.36
38	1.29
40	1.23

TWICE THE ACRES OF PROTECTION

AZTEC HC Granules are infused with 2X active ingredient to create a 9.34G formulation:

- Allows corn growers to cover twice the number of acres in a single trip compared to the AZTEC 4.67
- One load of AZTEC HC on a 24 row planter provides superior rootworm control on approximately 736 acres

TWICE THE CONVENIENCE

Cover more acres with a single load:

12 row planter = 600 lb. = 368 acres

16 row planter = 800 lb. = 490 acres

24 row planter = 1200 lb. = 736 acres

TWICE THE CONVENIENCE

From storage to handling,
AZTEC HC offers
Retailers and Growers
2X efficiency

2X EFFICIENCY FOR RETAILERS:

- Half as many pallets to warehouse
- Half the empty containers to handle

2X EFFICIENCY FOR RETAILERS:

- Fewer loads to transport
- More efficient use of fleet

2X EFFICIENCY FOR GROWERS

- Half the number of SmartBox Containers
- Twice the acres – Half the refills
- Half the lifting and loading
- More time to plant and take care of spring fieldwork

SmartBox® METER UPGRADE

With the introduction of new AZTEC HC, the SmartBox Meter has been upgraded to ensure efficient application of the higher concentration granules.

While additional diffusion is not required, measures should be taken to ensure labeled rates are applied, and evenly distributed in the furrow.

For Calibration Call 1-888-SmartBox or
1-888—762-7826

SmartBox[®] METER UPGRADE

OPTION 1 –

2015 model year SmartBox Systems, feature new Double Helix Diffusers to maximize application efficiency of higher concentration granules...

The Double Helix Diffuser controls the flow of granules, to allow uniform dispersion in the furrow.

SmartBox Systems manufactured prior to 2015 can be fitted with the upgraded DH Meter by Willmar Fabrication.

NEW from AMVAC

Powered by dual modes of action:
pyrethroid and organophosphate

THE POWER OF CONCENTRATION

AZTEC KEEPS ROOTS
HEALTHY

THE POWER OF CONCENTRATION

AZTEC KEEPS STANDS
STRONG

THE POWER OF CONCENTRATION

Controls all species of corn rootworm:

- Northern
- Western
- Southern
- Mexican

(Including extended diapause biotypes
and the Western variant)

THE POWER OF CONCENTRATION

“When that window opens for planting, I want to load up and run. The new AZTEC Higher Concentration Granular insecticide is a great concept. We treated over 700 acres in one pass. that’s exactly what the doctor ordered.”

IL Corn Grower comments
on beta test application of
new AZTEC® HC

BENEFIT SUMMARY

- Twice the active ingredient
- Twice the acres – Half the refills
- Twice the convenience – Half the lifting
 - Powered by 2 modes of action
 - Superior rootworm control
 - Controls secondary insects
 - Improves consistency
 - Reduces risk
