

basamid^G | Active Ingredient: Dazomet 99.0%

Armed with Dazomet — the Only Granular Soil Fumigant

BASAMID[®] G contains the active ingredient dazomet, the only granular soil fumigant on the market. It controls labeled weeds, including bermudagrass and *Poa annua* seeds, nematodes, and soil diseases. BASAMID G works quickly and allows new seeding or sprigging of greens, tees, or fairways in as little as eight days after treatment. BASAMID G is a Restricted Use Pesticide.

FEATURING

- ✓ IRAC Group 8F Insecticide
- ✓ Mode of action: Dazomet is transformed into MITC gas, which diffuses through soil pores to sterilize the soil
