

IT'S A STROKE OF GREENIUS.

Outsmart hard-to-kill weeds like Kyllinga, yellow nutsedge and purple nutsedge with SUREPYC IQ™ herbicide, a new premix product that strikes back against these tough weeds and other listed species. SUREPYC IQ is a selective, warm-season herbicide with the only premix combination of sulfentrazone and imazaquin, giving you both swift control of Kyllinga and nutsedge, and broad-spectrum control of a variety of listed weed species. With its dual modes of action, SUREPYC IQ controls more than 70 listed weeds. It's not just effective. It's smart control.

SUREPYC IQ HERBICIDE IS EFFECTIVE ON MORE THAN 70 LISTED WEEDS INCLUDING:

- Kyllinga
- Yellow nutsedge
- Purple nutsedge
- Dandelion
- Dollarweed

Refer to the label for a full list of weeds controlled by SUREPYC IQ.

SUREPYC IQ HERBICIDE CAN BE APPLIED TO THE FOLLOWING WARM-SEASON TURFGRASS SPECIES:

- Common Bermudagrass
- Hybrid Bermudagrass
- Centipedegrass
- St. Augustinegrass
- Zoysiagrass

SUREPYC IQ will effectively control susceptible weeds when applied during the directed application timings. It may be used on well-established turfgrass on grounds or lawns around residential, industrial, institutional and commercial establishments, golf courses, athletic fields, parks, cemeteries and sod farms.
